

SKID PLATE

24.1696 lot.01.12.2011
DESIGNED FOR
TOYOTA Land Cruiser 150
(GX460)

The skid plate is designed and manufactured by Sherief LLC in accordance with the standards of ISO 9001:2008. The skid plate is made of high quality material and is designed to protect the engine and transmission from mechanical damage.

Application
Protection of all parts and engine elements from mechanical damage.
Prevention of engine bay fire risk, mud and debris.
Prevention of acid rain, characteristic of unpaved roads.

Characteristics Features
Made of stainless steel plates of contact with car body.
Powder coating.
Dimensional tolerance (with plugs) for oil drain and oil filter replacement.

Installation
The skid plate is fixed to regular openings in the car body.

Service conditions
Protect from driving into big obstacles or high speed.

Warranty
Warranty period - 1 year.
Warranty is not valid in case of service conditions beyond.
System of quality control of LLC Sherief LLC conforms to the requirements of ISO 9001:2008.

The skid plate is designed for vehicles with undamaged body elements
